"TEAM OF TWO FOR TWO HOURS

This includes the supplies and labor to form classic balloon decorations (arches, columns, bouquets as centerpieces or as floor designs....called trees), singles for hand-outs, release on the ceiling. The labor is fast..... we can inflate and ribbon 100 balloons within 25 min. form a cluster arch in 30 min., a cluster column in 10-15 min., etc. We arrive with a large helium tank, 350+ balloons (11inch professional brand Qualatex, float-time 18 – 24 hours indoors), pre-cut ribbons, clear arch line, and sand weights. It's a good plan for when you know you want us to show up but want to make last minute changes AND you want to save money. Our customers who take advantage of this plan will save \$250!

Here's an example: A really large arch about 10' x 12' will use about 141 balloons, and 8' column will use about 54 balloons, a balloon bouquet(tree) of 3 balloons uses 4 balloons (one for weight). A single arch over one 8' table and 2- 6' balloon columns or 2 balloon trees. My count: 100 balloons for 25 table centerpieces of 3 balloons with sand weight. 150 balloons for cluster arch. 20 balloons for single arch over one 8' table, 80+ balloons for 2 6ft. balloon columns or balloon trees.

Team of Two for Two Hours: \$380.00
